## Centor S4 Screen

---

The award-winning S4 Screen allows homeowners with large doors to enjoy the luxury of inside-outside living without the traditional compromises: insects, glare and loss of privacy. Designed to fit nearly any door — folding, french or sliding — S4 delivers unparalleled engineering.

Operating with just a fingertip, Centor's unique load balancing technology allows screens and shades to glide smoothly across the entire opening and effortlessly stop at any desired position.

When not in use, the screen or shade retracts discreetly into the frame, removing visual distractions to the view outside while also protecting it from damage, dust or dirt.

centor®

#### Finger-tip operation

Engineered to glide  
from any height

#### Unobtrusive

Screens are there when  
needed & hidden when not

#### Replaceable

Shades can be replaced  
should tastes change

#### Made to order

Custom-made to your  
specific requirements

## Technical benefits

- Fabrics are fully retained within the frame — with no gaps — to allow total control of insects, sunlight and privacy.
- Screen and shade fabrics are held securely in place by top and bottom tabs, preventing screen blow-out — even in a breeze.
- S4 can be mounted on the inside or outside – drainage holes are added to the sill for externally mounted systems.
- Sill cover is quick and easy to remove to make cleaning trouble free.
- The system can be fitted to the inside or outside of the opening.

## Shades

### Interior shades

Luxury shade fabrics are available in light-filtering and blackout options for systems mounted on the inside of the opening.

### Sun-filtering shades

Perfect for reducing glare, solar heat gain and fading. Can be fitted internally or externally but a popular choice for outside given its hard-wearing, easy-clean qualities.

### Insect screens

Durable polyester/PVC mesh is available in two different weave styles to keep even the smallest insects outside.

#### Standard weave

Keeps insects like moths, flies and mosquitoes outside, while standing the test of time with a durable polyester/PVC mesh construction.

Openness: 46%

#### Tight weave

Made from the same durable material as our standard weave but features a smaller aperture to protect against tiny insects like midges.

Openness: 37%

## Configurations

### Single

A single screen or shade that extends from one side of the frame to cover the full width of the opening.

### Combination

A combination of two fabric types — both covering the full width — such as a screen from the left & a shade from the right.

### Double

Two screens or shades (in the same fabric option), which meet at any point along the opening.

## Aluminium frame

S4 is constructed from durable aluminium. The frame can be powder-coated in one of our popular colours ([centor.com/screens](http://centor.com/screens)) or customised to colour match existing doors and windows<sup>3</sup>.

## Wood veneer

S4 can be specified with a 3mm timber veneer applied to a black anodised frame.

Frame sizes are always the maximum measured size. They always include wood cladding or the brackets required for assembly into a wall pocket.

Victorian Ash

Meranti

Surian Red Cedar

Rosewood

Western Red Cedar

## Frame size

Specially designed for large doors, S4 can span 3200mm high and 9013mm wide.<sup>1</sup>

Fabric type	Overall frame width (mm)			Overall frame height (mm)	Install location	
	Single	Combo	Double <sup>2</sup>		Inside	Outside
Standard weave mesh	1015 - 4611mm	1015 - 4676mm	1015 - 9013mm	815 - 3200mm	✓	✓
Tight weave mesh	1015 - 4611mm	1015 - 4676mm	1015 - 9013mm	815 - 3200mm	✓	✓
Boston, blackout	1015 - 3377mm	1015 - 3442mm	1015 - 6545mm	815 - 3002mm	✓	
Boston, light-filtering	1015 - 3577mm	1015 - 3642mm	1015 - 6945mm	815 - 3002mm	✓	
Tuscany, blackout	1015 - 3377mm	1015 - 3442mm	1015 - 6545mm	815 - 3002mm	✓

Mercury, blackout	1015 - 4011mm	1015 - 4076mm	1015 - 7813mm	815 - 3002mm	✓	
Mercury, light-filtering	1015 - 4611mm	1015 - 4676mm	1015 - 9013mm	815 - 3002mm	✓	
Sun-filter	1015 - 3377mm	1015 - 3442mm	1015 - 6545mm	815 - 3200mm	✓	✓

<sup>1</sup> Fabric widths are established by fabric thickness. Variations in fabric thickness may mean the maximum width can not be achieved. In these cases we offer an alternative colour or fabric type or an extended lead time to allow fabric to be resupplied from the mill.

<sup>2</sup> All screens over 5910 width require frame joiners to the head and sill.

<sup>3</sup> Additional fee applies.

## Complementing systems

**S4 Corner Screen**

Insect screens &/or shades for post-less doors or windows

**S2 Screen**

A horizontally retractable insect screen for smaller doors or windows

**S5 Screen**

A vertically retractable, chain-operated screen or shade for timber windows

**S6 Screen**

An aluminium system that's chain operated with insect screens & shades
