## Centor S4 Corner Screen

Open more of your home to the outside with the Centor S4 Corner System. Designed with the same clean lines as our S4 System, homeowners will enjoy even more fresh air and views, with each side of the opening capable of spanning up to 4592mm wide.

Operating with just a fingertip, Centor's unique load balancing technology allows screens and blinds to glide smoothly across the whole door opening to effortlessly stop at any desired position. When not in use, the screen or blind retracts discreetly into the frame removing visual distractions to the view outside whilst also protecting it from damage, dust or dirt.

centor®

#### Finger-tip operation

Engineered to glide from any height

#### Unobtrusive

Screens are there when needed & hidden when not

#### Replaceable

Shades can be replaced should tastes change

#### Made to order

Custom-made to your specific requirements

## Technical benefits

- Pair with new or existing post-less doors or windows.
- Operates from any height with one hand so the youngest of family members can operate the screen.
- Screen and blind fabrics are held securely in place by top and bottom tabs, preventing screen blow-out – even in a breeze.
- The screen and blind are fully retained within the frame on all sides to allow total control of insects, sunlight and privacy.
- Can be mounted on the inside or outside – drainage holes are added to the sill for externally mounted systems.
- Sill cover is quick and easy to remove to make cleaning trouble free.

# Shades

## Interior shades

Luxury shade fabrics are available in light-filtering and blackout options for systems mounted on the inside of the opening.

## Sun-filtering shades

Perfect for reducing glare, solar heat gain and fading. Can be fitted internally or externally but a popular choice for outside given its hard-wearing, easy-clean qualities.

## Insect screens

Durable polyester/PVC mesh is available in two different weave styles to keep even the smallest insects outside.

## Configurations

The S4 Corner System complements large post-less sliding and folding doors. Two screens or blinds (in the same fabric option) meet at a 90-degree angle opening.

### Internal corner opening

### External corner opening

## Aluminium frame

S4 Corner is constructed from durable aluminium. The frame can be powder-coated in one of our popular colours ([centor.com/screens](http://centor.com/screens)) or customised to colour match existing doors and windows<sup>3</sup>.

## Wood veneer

S4 Corner can be specified with a 3mm timber veneer applied to a black anodised frame.

Frame sizes are always the maximum measured size. They always include wood cladding or the brackets required for assembly into a wall pocket.

## Frame size

Specially designed for large doors, S4 Corner can span 3200mm high and 4592mm wide.<sup>1</sup>

Fabric type	Overall frame width (mm)	Overall frame height (mm)	Install location	
			Inside	Outside
Standard weave mesh	1061 - 4592mm	815 - 3200mm	✓	✓
Tight weave mesh	1061 - 4177mm	815 - 3200mm	✓	✓
Boston, blackout	1061 - 3358mm	815 - 3000mm	✓	
Boston, light-filtering	1061 - 3558mm	815 - 3000mm	✓	
Tuscany, blackout	1061 - 3358mm	815 - 3000mm	✓	
Tuscany, light-filtering	1061 - 3992mm	815 - 3000mm	✓	
Mercury, blackout	1061 - 3992mm	815 - 3000mm	✓	
Mercury, light-filtering	1061 - 4592mm	815 - 3000mm	✓	
Sun-filter	1061 - 3992mm	815 - 3200mm	✓	✓

<sup>1</sup> Fabric widths are established by fabric thickness. Variations in fabric thickness may mean the maximum width can not be achieved. In these cases we offer an alternative colour or fabric type or an extended lead time to allow fabric to be resupplied from the mill.

<sup>2</sup> All screens over 5910 width require frame joiners to the head and sill.

<sup>3</sup> Additional fee applies.

## Complementing systems

**S4 Screen**

Insect screens &/or shades for large doors or windows

**S2 Screen**

A horizontally retractable insect screen for smaller doors or windows

**S5 Screen**

A vertically retractable, chain-operated screen or shade for timber windows

**S6 Screen**

An aluminium system that's chain operated with insect screens & shades
