<sup>1</sup> Fabric widths are established by fabric thickness. Variations in fabric thickness may mean the maximum width can not be achieved. In these cases we offer an alternative colour or fabric type or an extended lead time to allow fabric to be resupplied from the mill.

<sup>2</sup> All screens over 5910mm (232 11/16") with require frame joiners to the head and sill.

<sup>3</sup> Air weave mesh is coming soon. Please discuss availability with your Centor Representative.
